CONTROLLED BUILDINGS AND FACILITIES

In conformance with the regulation controlling smoking in buildings and facilities maintained by GSA, this Agency has elected to adopt a policy which strives to maintain an equitable balance between the rights of non-smokers and smokers. Effective 1 December 1978, smoking will be prohibited in the following areas:

- a. Auditoriums, classrooms, conference rooms, and elevators.
"No Smoking" signs will be posted in these areas, and receptacles for smoking refuse will be placed outside the entrances to the facilities.
- b. Shuttle vehicles.
- c. Hazardous areas which involve flammable liquids, gases, and vapors, or in all other locations where a collection of readily ignitable combustible material exists.
- d. Smoking will not be permitted in libraries, except in those non-stack areas specifically designated as "Smoking" areas.
- e. An employee occupying a private office is authorized to declare that office as a "No Smoking" area.
- f. "No Smoking" areas will be established in cafeterias and identified by appropriate "No Smoking" signs.
- g. Smoking in open space work areas can be allowed and supervisors should plan work space in a manner so that employees who desire "No Smoking" areas can be accommodated providing that:
